Six Hundred Ute Indians Held in Check by the Troops-The Last Battle.

How the Hostilities Originated-More Fighting and a Reign of Terror in Havana.

Race War Going on at Decatur, Ga. The Marshal Killed—His Deputy Wounded.

DENVER, Col., Aug. 99.—The first accounts from Sheriff Kendall's fight with the Utes was more favorable to the white mon than the after attuation justified, and the present status is such that a stronger force of require troops will be necessary to enforce quiest than the army has in that immediate vicinity. To sum it up in a few words, Kendall retreated and the Utes swarmed out from the reservation bent on revonge. They were only held in check by the presence of the colored troops from Fort Duchesne, who appeared just in time to save Kendall and his men from slaughter. On Friday Kendall moved back seven miles to Rangely, a small sottlement in Garfield County, about fifteen miles from the border. Four days' rations reached him on that day and he sent an appeal to Mesker for more ammunition. Every available man is Mesker hurried to his aupport, and by this time his force probably numbers 400 men. At Rangely he has thrown up defensive works, and as the town is on a table-land it is not likely that the Indians will attack it. The scattered settlers have gathered there with their wive and children, leaving their ranches unprotected. The Utes committed in depredations while on the run before Kendall's pursuit, but when themselves helty pressed they assumed the offensive. In the fight

The city is in charge of regular troops and the situation becomes daily more desperate, recalling the events attending the massacre of medical students in 1971. A reign of terror prevails and it is expected that Havana will be declared in a state of siege. Already several conflicts here occurred between troops and clyllians, resulting in the killing of some and wounding of others. Captain Gongral Marin has issued a proclamation calling on the rioters to maintain order; otherwise sovers measures to maintain order; otherwise sovers measures will be adopted to uphoid the law. Daily conferences are held with his military chiefs and measures have been adopted to prevent a general uprising, which is immisent. The Colomets of all the volunteer regiments were called together at the plant and ordered to disarm their forces; otherwise they would be held responsible for what might occur. The volunteers, who are opposed to Marin and are encuraged thereis by political bodies desirous of his removal, have joined the rioters. Eversimentings have been held in the park, where cheers of "Viva Salamanca" were given and cries of "Down with Marin." WHITER AND RLACES.

DECATUR, Ga., Aug. 22.—A big riot is going on here between the whites and blacks, in which several men have been killed. Early this morning a large crowd of negroes from Atlanta came to Decatur and negroes from other places visited the town to held a celebratica. Early in the day it was noticeable that they were drinking freely, and the marshal approhended trouble. About twelve o'clock he made several arrests and placed the disorderly negroes in the guard-bouse. This was a signal for a general uprising. Presently a pistol was fired and in another moment the shooting was general. Then it was learned that twe men had been killed and one mortally wounded. When the dead were picked up one was found to be the marshal of the town and an unknown negro. Tom Shivers, white, one of the marshal's posse, was shortally wounded. WHITES AND BLACKS.

Indomnity Lasda.

Washington, Aug. 25.—The Northern
Pacific Railroad Company, by attorney, has
filed with the Secretary of the Interior an
application for a rehearing in the matter
of the revocation of the orders of withdrawal of its indomnity lands, so far as
that revocation applies to the selections by
the company already of record, and to future selections which it will hereafter have
to make "in common with the rest of the
world." The company takes exception to
the rules laid down in the docusion referred
to restricting the company's selections te to make "in common with the rest of the world." The company takes exception to the rules laid down in the decision referred to restricting the company's selections te the State or Territory in which the leases occur; and declaring there is no second demnity belt, and that the company is estilled to lonees only for lands disposed of since the date of the grant of July 3, 1884. The application says: "It is conceded by the Department that under the original charter the company would be entitled to select indemnity for all lands lost prior to the definite location of the read, without limit of time within which the leases must have occurred." But the decision then proceeds to lay down that by its charter the company was prohibited from issuing bonds or morigage, and was seeking to and did have such prohibition removed by the passage of the joint resolution of May 31, 1870, and that there was reason why asking a right denied Congress sheeld then modify the indemnity proceedings. Hence, in passing the joint resolution, and thereby granting the right to issue bonds and mortgages, the granting power therein restricted the indemnity to leases occurring between the date of the original act and the date of the definite location, and specified that the indemnity selections should be restricted to the particular States or Territories in which the losses might be sustained, declaring that part of the decision which restricts indemnity for losses after the passage of the granting act rests upon the construction to be placed upon the joint resolution of May 31, 1874. The company desire to be heard upon that question, asserting that it can show containing that the part of the decision of May 18, 1883, in which a second indemnity belt was recognized, and in which the company from making indemnity selections other than in the States or Territories in which the losses occur, the application again calls attention to this decision of Secretary Teller in which it is sheld that "it tions other than in the States or Territories in which the losses occur, the application again calls attention to this decision of Secretary Teller in which it is beld that "it was clearly the intention of the legislation that within the indemnity limits fixed by the Northern Pacific acts, the company should have the opportunity to take lands, acre for acre, for all those lost in place." The New Orleans Pacific Railway Com-pany has also applied for a rehearing upon the ground that it has not had sufficient op-portunity to make its selections. The Act-ing Socretary will hear counsel for each of these roads in support of their applica-tions, either orally or by brief.

COLOROW AGAIN.

A Fight Roported to Have Takes Place
With Colorow's Band.
GLENWOOD SPRINGS, Col., Aug. 27.—Bernson, who lives about four miles below
Meeker, is just in. A battle has taken
place between Kondall's men and a band of
Indians. Deputy Sheriff Jack Ward was
killed and several wounded. Several indians are reported killed, as several were
asen to fall and to be carried off the field.

Agence, Col., Aug. 27.—The Indian war as assumed a grave aspect, and for all that is known a big battle may have taken lace between Colorow and Major Leshe's command of 100 poorly equipped man. It is noped that if such is the case the 100 men have not been served in a similar manner to Sh-rabargh, although the conditions are the same. When the news of the encounter in Coyote basin yesterday between Pritchard's acouts and the Indians was received, General Reardon acted promptly. The Aspen volunteers—seventy five men—were sworn into service and started to the front. Captain Dana and the Colorade Springs company of Intoservice and started to the front. Captain Dana and the Colorade Springs company of fifteen men also went. Dana carries a warrant for Colorow. The men have imperative orders to bring Colorow dead or alive. When the men reach there, there will be about 200 men in the field against the Utes. They are thought to number about 200. Moeker is almost stripped of men, and the population is two-thirds women and children. Families are coming in in large numbers and no one leaves town except when compelled to do so.

COMMERCIAL UNION.

COMMERCIAL UNION.

Efforts in Causda to Effect Reciprocity With the United States. Montrast, Aug. 28.—Never in the pro-tince has a more intelligent and apprecia-tive audience assembled than the one which fired for commercial union. Stirring ad-dresses were delivered by Messra. Clayes, member of Parliament for Missisquoi; Fisher, member of Parliament for Bouse; Auget, ex-member of Parliament for Shot-ford, and E. Johnson and H. M. Rider. Mr. Poutaine, of St. Hweight, make ford, and E. Johnson and E. M. Rider. Mr. Fontaine, of St. Hyacinth, made an address in Fronch, advising his countrymen to give their support to the movement, which, he bolioved, would be for their good in every way. Long and frequent applianse interrupted all the speakers, and loft no doubt is the minds of unblased spectators that the movement is a popular one. The meeting was brought to a close with cheers for the Queen and the President. A lotter was read from Erastus Wiman, in which he deplored his inabilify to attend the meeting, owing to numerous engagoments, but assuring the assembly of his outire sympathy with the cause, and expressing the wish that he might hereafter meet with the farmers and citizens to consider the great question of commercial consider the great question of commercia union, which had as yet had no proper dis cussion in the province of Quebec. Yester day's meeting will be followed by others, the first of which will be hold at Waterloo. Shefford County, on Soptember 9 next. Mr. Wiman and other prominent supporters of the cause are expected to be present at this meeting.

Polasonous Whisky Found.

Wichitz, Kan., Aug. 26.—At the time of the closing of the West End drug store, about \$2,000 worth of liquors were confiscated by the county. Yesterday O'Connor and Jones, of the Internal Revenue Department, made an examination of the liquors in the barrels and found that the contents in no way corresponded with the proofs made by the officers upon the barrels. In one barrel of whisky was found, as the examiner expressed it, enough of arsenic to polson the town. A keg of gin they said had been made in the cuty and had not passed through the hands of the revenue officers at all. The proper steps will be immediately taken for the conviction of the parties guilty.

Zobehr Pasha.

Losnon, Aug. 36.—Zobehr Pasha, who was recently released from confinement at Oibraltar, had an interview with the Khedive of Egypt on the subject of Zobehr's return to Soudan. For many reasons the presence of Zobehr in Upper Egypt and Nubia would be advantageous to the Egyptian Government, but the advantages are offset by the fact that he is capable of doing more harm than good, and is none to scrupulous to repeat his old performance of double dealing. Nobody believes that he has been chantened by his adversites, and most of the Egyptian officials are that he has been characters in the same most of the Egyptian officials at the same most of the Egyptian officials at

DISASTROUS COLLISION.

thie Collision of Freight Tra Espicaless of Coal Oil.

Aromson, Kam., Aug. 38.—A disastrous collision occurred at 11:30 o'clock last night near the Union Dopot in this city. The St. Joseph freight train on the Missouri Pacific had just crossed the Missouri river a little behind time and was moving up into the yards as the local switch engine with a heavy transfer train came backing. river a little behind time and was moving up into the yards as the local switch engine with a heavy transfer train came backing down from the opposite direction. Engineer Powers, of the switch engine, perceived his peril and reversed his engine, but the track was elippery on account of a steady rain all day, and he could not step. The engine crashed into the side of the other train. Powers and his fireman jumped and escaped injury. The cancussion knocked three cars off the track, and isstantly a terrific explosion occurred in one of the forward cars of the St. Joseph train. Flames shot forth at once, presumably from the barrels of kerosene, and in an instant the train was on fire. All the engines in the yards sounded their whistles, and the fire department came to the rescue, but another explosion followed, which intensited the heat and excitement, and little could be done. The car containing the combustible fluid rested on a bridge over White Clay creek, which was soon enveloped in flames, and a car load of hogs, suffocating by heat and smoke, added to the general clamor. Area were procured and the sides of the car burst in, and a fow of the hogs were saved in a badly singed and crippled condition. Other switch engines were sont down, and all the cars that were not actually on fire were pulied out and saved, but the switch engine, nine loaded cars and the bridge were destroyed.

NARROW ESCAPE.

Three Handred Miners Imperiled—They Are Finally Reseased.

NARTICOUS, Pa., Aug. 25.—Terrible excitement was caused yesterday morning in the fatal No. 1 shaft at this place by the breaking away of the earth barriers that separate a worked out portion of the colliery from the chambers where mining is in progress, and the sudden precipitation of a large body of water into a gangway where over 300 miners were at work. For a long time past a huge subtorranean reservoir has been forming containing millions of gallons of water. This underground lake was 270 feet below the surface. The chamber where the men were at work was 150 feet further down and about the same distance from the mined galleries. The first intimation the men had that the mine was being flooded was the sudden appearance of water in the chambers. As it increased in depth many hurriedly quit work and rushed to the bottom of the shaft. By this time a regular exedus from all parts of the colliery set in, the miners wading through water before all got out. The work of rescuing the men was proceeded with promptly, the steam carriage taking up twenty at a time. All sorts of rumors were set adrift and the mouth of the mine was crowded with anxious women and children, exhibiting the usual alarm and frantic demonstrations. Luckliy all were taken out safely. PENNSYLVANIA PROHIBITION.

Permanent Organization Effected and the Platform Read.
HARRISTURG, Pa., Aug. 25.—Half an hour's service of prayer and praise proceed the State convention of Prohibitionists which was called to order in the Opera cede the state convention of Prointionists which was called to order in the Opera House at ten o'clock yesterday morning. About 40 delegates, probably a dozen of whom were women, were present. Hon. S. B. Chase, of Easton, was introduced as temporary chairman and spoke briefly, after which the temporary organization was completed, committees on resolutions and permanent organization appointed and the convention adjourned until two o'clock. The afternoon session was opened with prayer and a permanent organization was effected by the election of Hen. C. S. Wolf as chairman and a long list of vice presidents. The platform was then read. It donounces the liquor traffic and demands its prohibition by constitutional amendment; upbraids the present great political parties for their cowardice toward the saloon power at the ballot box; favors protection of American labor and capital and the restriction of immigration as against pauper

Arrested for Train Wrecking. Arrented for Train Wrecking.

Kansas Citz, Aug. 28.—Shortly before four o'clock yesterday afternoon, Charles Babbitt, a young man about thirty years old, wasarrested on the charge of assisting in the wrecking of a Missouri Pacific freight train near Independence, on the night of April 18, 1828. At the time of the arrest Babbitt, who is a carpenter by trade, was at work upon a house in West Kansas, near the Missouri Pacific freight depot. He made no resistance whatever, and asked no questions, but when the warrant was read to him dropped his tools and accompanied the officer to the Second street jail.

An Old Texas Veteran's Death. An Old Texas Veteran's Death.
Distrox, Tex., Aug. 25.—A fire was discovered at two o'clock yesterday morning in the kitchen of the James Hotel, a two story brick structura. The proprietor, seeing the fames were beyond control, had the guests aroused. Colonel A. J. Hitchcock, an old Texas veteran, was awakened and started from his room but lost his way and ran into the flames. After an all day's searth his charred remains were found in the rains last night. He was one of the survivors of the Fannin massacre at Goliad in March, 1837. He was seventy-three years of age, and was a native of Georgia. He fought through the Texas war for independence. He had no relatives as far as lo.own, but leaves a large estate. lo.own, but leaves a large estate.

The Commission.

Washington, Aug. 28.—A letter has been received by the Inter-State Commerce Commission from O. D. Keyes, at Faribault, Minn., in which he refers to the contemplated Western trip of the Commission this fall, and states it will be necessary for it to take the testimony of a large number of Minnesota witnesses in the case of the Board of Trade Union against the Chicago, Milwaukee & St. Paul road. Chairman Cooley has replied that the facts in the case must be largely matters of public notoriety, which it will be unnecessary to prove orally. He dwells at some length on the volume of business awaiting the action of the Commission, and urges counsel to endeavor to reach agreements as far as nossible. The Commis

POPULAR OPINION.

LOSDON, Aug. 26.—An en

afternoon to await the arrival at the House of Commons of Mr. Gladstone, and when the Liberal leader finally House was the signal for a burst of cheering, hand-clapping, hat toesing and hand-kerchief waving that lasted for soveral minutes. In marked contrast to the reception of Mr. Gladstons by the people assembled outside of the Parliament House was that accorded by the populace to Lord Salisbury. Lord Randolph Churchill and Mr. Goschen. As each of these gentlemen appeared in view a storm of grouns, hoots and hisses arose and increased in volume until the object of the crowd's detectation disappe ared from sight. The effect of this exhibition of popular disfavor, upon Mr. Goschen in particular, was unmistakably severe, and the spectacle of the Chancellor of the Exchequer crying and shrinking before the howis, jesra and hisses of a representative crowd of Englishmen was extremely pitiful. The absence of Mr. John Moriev from his seat was conspicuously noticeable, and was the cause of much comment of varied character. The Tories claim that his failure to respond to the Liberal whip signifies his dissent from the recent tactics of the English Liberals anent the National League, but this is not the cause. The purpose of Mr. Gladstone's proclamation is merely to place the Liberal party squarely upon record as branding the action of the ministry as outrageously unjust and unprovoked, and this can be done thoroughly without necessitating Mr. Morley's shortening his vacation and hastening to leaden. Had Mr. Morley's voice or vote been seantial to the success of Mr. Gladstone's object, he most assuredly would have been in his seat last evening.

The scene in the House when Mr. Gladstone arose to speak was highly exciting. He was tremendously cheered at the beginning of his speech and vociferously applauded at the end, and the howls and cat-calls of the younger Tories sank into insignificance beneath the wight of the avalanche of approving crios. Mr. Gladstone and reliable and that his report employed the formal Biller's sources of information as to the state of Ireland were and estable and reliable and that his report employed

The Cabinet council, which was in session two hours yesterday, devoted its time to discussing the National League question, and, it is understood, without reaching any other decision than the one arrived at when the council met. Evidence is rapidly accumulating that the government keenly feels the peculiarly embarrassing position in which it is placed. It is afraid to go further forward, and dare not go back. They were threatened with the loss of popular support on the one hand, and the wrath of the Tory squires on the other.

They want to see the law white Man: won't talk to cowboy the law won't talk to cowboy the law with the law of the property of the propert while in 1879 was founded that organization of which Parnell is leader, and which bids fair to enable him to regain legislative independence. The freedom of Dublin was presented to Grattan, and exactly a century later the same compliment was conferred on Parnell. Both were Protestanta. Grattan ettached himself to Fox, who visited Ireland in 1778; Parnell to Gladstone who visited Ireland in 1878 A golden tribute from a grateful people was presented to both. Grattan bought an estate in Queens County, the strong hold of the Parnells, but chose his home in County Wicklow, whither Charles Stewart Parnell's grandfather had migrated and also fixed his residence. In 1780 Grattan's declaration of Irish rights was florcely attacked by the government, and so also was Parnell's programme in 1820, by means of State prosecution. Both were intended in youth for the bar, but neither had a taste for the profession. A base offort was made to implicate Grattan in the treasonable plots of his time and failed; the same remark applies to Parnell."

The Appeal is the Sharpe Case.

New York, Aug. 25.—The appeal in the Sharpe case will come before Chief Justice Van Brunt, and Judges Daniels and Brady on the first Monday in October. District Attorney Martine and his assistants. Nicoll and Fellows, are out of town, and taeir sentiments in regard to the stay granted in the case by Judge Potter yeaterday could not be learned. Judge Barratt is also away. Assistant District Attorneys Semple and Fitzgorald expressed surprise at Judge Potter's ruling, and did not think the administration of justice was much helped by the case with which stays could be procured. Comes for Sharpe were unanimous in the belief that Judge Potter's position was sound.

SHITHLAND, Ky., Aug. 22.—Judge D. L.

Sanders, of Paducah, who owns several
large tracts of land in this vicinity, has
been prospecting for some days past for
fron, and has met with gratifying success
on what is known as the Hanlon place.
He struck a bed of brown ore, which proved
to be of the same kind as that found by
Dr. Standiford at Louisville, and yielding
ixty-one per cent. of ore. The land is
situated on the Cumberland river, a few
miles above its mouth, and is accessible to
steamboats the year round. The find has
erented a great deal of interest among
land-owners and capitalists in this community.
